Residence  
Seattle, WA  
USA

culy@mac.com  
Citizenship: U.S.A.

## Education

Ph.D. and A.M. in Linguistics, B.S. in Mathematics, Stanford University

## Recent work experience

### Independent Consultant

Consultant for the Analysis and Visualization of Language Data 2014-present  
Provide services for all aspects of the analysis and visualization of language-based information.

- Develop practical natural language processing (NLP) strategies
- Incorporate effective visualizations into projects
- Combine natural language processing and textual analysis with interactive visualization
- Provide software development support for analysis and visualization projects
- Conduct day-long workshops on visualization, with theoretical and hands-on portions
- Give presentations on aspects of visualizations to a range of audiences
- Public example: Word Formation Latin site: [wfl.marginalia.it](http://wfl.marginalia.it)
- Public example: Research on word embeddings: [chrisculy.net/lx/wordvectors/](http://chrisculy.net/lx/wordvectors/)
- Public example: NLP + Visualizations of correspondence: [visexplet.chrisculy.net](http://visexplet.chrisculy.net)

### Institute für Sprachwissenschaft (Linguistics), General and Computational Linguistics, University of Tübingen

Visiting Full Professor 2011-2014  
Did research and taught courses on the visualization of linguistic information and natural language processing

- Developed new research projects in the visualization of linguistic information, coupled with applications using natural language processing
- Gave several invited talks about new theoretical foundations for information visualization
- Developed visualization tools for linguistic applications
- Supervised Master's and Bachelor's theses in computational linguistics
- Mentored graduate students in computational linguistics
- Taught graduate and undergraduate courses in information visualization and natural language processing, emphasizing both theory and concrete applications
- Co-taught class on Visual Analytics for Linguists at ESSLLI 2014
- Head of graduate admissions for the Computational Linguistics group
- Undergraduate advisor

# Chris Culy, Ph.D.

## **Institute for Specialised Communication and Multilingualism, European Academy, Bolzano-Bozen (EURAC)**

Senior Researcher and Language Technologies Technical Officer 2008-2011

Led information and language technology research and development.

- Successfully started and led new research effort in visualization of linguistic information
- Developed first-ever software licensing policy for EURAC
- Developed language technologies policies and strategies for the Institute
- Supervised junior researchers and interns in visualization and computational linguistics
- Acted as primary liaison with the ICT department
- Developed innovative visualization programs, tools, and components
- Developed programs and tools for researchers in the Institute, integrating visualization, corpus query tools, databases, etc.

## **FX Palo Alto Laboratory, Inc.**

Senior Research Scientist and Project Leader 2004-2005

Senior Research Scientist 2003-2004

Led a multi-disciplinary research group and forged stronger connections with Japanese branches of the parent company, Fuji Xerox

- Successfully integrated groups in natural language processing, information retrieval, ubiquitous computing, and computer-supported cooperative work into new group
- Increased collaboration within the group and with the sister lab in Japan by improving communication
- Set major company research agenda in natural language processing, in close collaboration with Japanese counterpart
- Promoted research prototypes to company-internal customers via site visits in Japan
- Promoted Fuji Xerox research to other research laboratories in Japan
- Supervised 8 junior and senior researchers, giving evaluations, promotions, project direction
- Oversaw the graceful shutdown of another group and transition of its work to the sister lab in Japan when the local leader left the company
- Co-developed new text summarization algorithms, leading to 1 patent
- Provided text summarization as part of an automatic recommender system, leading to 2 patents
- Integrated a parser and summarizer into various systems by creating an XML-based representation of the parser output and providing SOAP interfaces

# Chris Culy, Ph.D.

## **SRI International**

Senior Research Linguist 2002-2003

Research Linguist 2000-2002

Led and worked on multi-disciplinary teams on innovative projects, helping to sustain the Natural Language group with external funding

- Co-Principle Investigator with speech scientists on SRI's DARPA Babylon Speech to Speech Translation project, funded for US\$3,000,000 over 24 months.
- Took over as Principle Investigator of SRI's ARDA AQUAINT Question Answering project, co-leading a team from different areas of artificial intelligence
- Developed a new framework for machine translation
- Worked on human-machine dialog systems, leading to 2 patents
- Extended SRI's existing parser to deal with languages other than English
- Developed novel text-to-speech technique as well as text-to-phone and intonation algorithms for Bambara with speech scientist and external linguist
- Provided natural language understanding to various systems via agents

## **Inxight Software, Inc.**

Computational Linguist 1999-2000

- Revised and streamlined build process of commercial system of finite state processing
- Provided morphology expertise to junior team members

## **The University of Iowa**

Associate Professor of Linguistics 1997-2001

Assistant Professor of Linguistics 1991-1997

Director of African Language Instruction 1991-2001

- Tenured with articles in syntax, mathematical linguistics, quantitative analysis of language, and typology
- Started and directed a successful program in African Language Instruction
- Wrote a part of speech tagger and finite-state parser for the TREC/TDT team

## **The University of North Carolina at Chapel Hill**

Visiting Lecturer 1990-1991

- Taught classes in linguistics

## **Pomona College**

Visiting Instructor 1990

- Taught classes in linguistics

Acting Director of the Language Laboratory 1990

- Oversaw the language laboratory and the student assistants

## **Pitzer College**

Visiting Instructor 1990

- Taught classes in linguistics

# Chris Culy, Ph.D.

## Patents

U.S. Patent 7,013,275: Method and apparatus for providing a dynamic speech-driven control and remote service access system. Inventors: D. Arnold, H. Franco, D. Israel, and C. Culy.

U.S. Patent 7,249,019: Method and apparatus for providing an integrated speech recognition and natural language understanding for a dialog system. Inventors: C. Culy, D. Israel, and J. Arnold.

U.S. Patent 7,363,294: Indexing for contextual revisitation and digest generation. Inventors: D-A. Billsus, D.M. Hilbert, J.J. Trevor, C.D. Culy, L. Denoue, G. Golovchinsky.

U.S. Patent 7,610,190: Systems and methods for hybrid text summarization. Inventors: L. Polanyi, M. H. van den Berg, G. L. Thione, R.S. Crouch, C.D. Culy, D.D. Ahn.

U.S. Patent 7,757,170: Recommendation aggregation for digest generation. Inventors: D-A. Billsus, C.D. Culy, D.M. Hilbert, J.J. Trevor.

## Open source visualization tools

### Exploring Word Formation in Latin [wfl.marginalia.it](http://wfl.marginalia.it)

Exploring Word Formation in Latin is the web application for the EU-funded project Word Formation Latin, at the Centro Interdisciplinare di Ricerche per la Computerizzazione dei Segni dell'Espressione (CIRCSE), at the Università Cattolica del Sacro Cuore, Milan, Italy. It allows for the exploration of Latin derivational morphology, via several “paths”, with multiple, linked interactive visualizations.

[chrisculy.net/lx/software/](http://chrisculy.net/lx/software/)

### DoubleTreeJS

DoubleTreeJS is an interactive way to give a more compact view of words in their context of use than a tradition concordance (KWIC) does. DoubleTreeJS is a re-implementation in Javascript of Double Tree (Culy and Lyding, 2010), which was inspired by Word Tree (Wattenberg & Viégas, 2008). See Culy et al. 2014.

### KWICis

KWICis is a modern concordance (keyword in context = KWIC) visualization that is interactive and designed for structured data. It is meant to complement DoubleTreeJS.

### ProD

ProD (=Prototype Dendrograms) is an interactive tool for visualizing linguistic tree structures, e.g. constituent structures, dependency structures, language family trees, etc. ProD will layout the structures either as dendrograms (nodes horizontally aligned by their distance from the leaves) or as node-link (tree) diagrams (nodes horizontally aligned by their distance from the root). See Culy et al. 2012.

# Chris Culy, Ph.D.

## Structured Parallel Coordinates

Structured Parallel Coordinates is a data visualization tool which is a specialized version of Parallel Coordinates (see Inselberg 2009). It is designed for linguistic data which has some kind of structure, either across dimensions or within dimensions. See Culy et al. 2011a.

## xLDD

Extended Linguistic Dependency Diagrams (xLDDs) are a visualization tool specialized for the graphical presentation of dependency structures and the dynamic interaction with these visualizations. xLDDs accommodate different types of linguistic information that are provided with dependency structures and are designed for a linguistically oriented audience, ranging from experts in dependency linguistics to language teachers and learners concerned with dependencies. See Culy et al. 2011b,c.

## Publications and presentations

### Invited talks

C. Culy. 2016a. "Progress in Linguistic Visualization". Invited plenary presentation at Advanced Visual Methods for Linguistics. September 26-28, 2016. University of Queensland, Brisbane, Australia.

C. Culy. 2016b. "Considerations in designing linguistic visualizations". Invited workshop presentation at Advanced Visual Methods for Linguistics. September 26-28, 2016. University of Queensland, Brisbane, Australia.

C. Culy. 2015a. "Information Visualization: Design and Techniques." Invited presentation at the AUVIS workshop. Fraunhofer Institute for Intelligent Analysis and Information Systems IAIS. January 22-23, 2015. Sankt Augustin, Germany.

C. Culy. 2015b. "Interactive visualization tools for analyzing language data". Invited presentation at the Università Cattolica del Sacro Cuore. April 16, 2015. Milan, Italy.

C. Culy. 2014a. "Learning from MOTHs." Invited presentation at the Workshop on Interactive Language Learning, Visualization, and Interfaces. Association for Computational Linguistics, June 27, 2014 Baltimore, MD.

C. Culy. 2014b. "Getting inside the letter: using visualisation tools to explore the language of emigrant correspondence." Invited presentation at the Workshop on visualizing letter collections, part of the project on Digitising experiences of migration: the development of interconnected letters. March 14-15, Omagh, Northern Ireland.

C. Culy. 2013a. "Visualization of Language and Linguistic Information." Invited presentation at the Arbeitstreffen: Netzwerk Lexicographie. November 20-21, 2013. Institute für Deutsche Sprache, Mannheim, Germany.

# **Chris Culy, Ph.D.**

C. Culy. 2013b. "Putting visualizations into words." Invited presentation at the Visualization of Text Data Workshop. November 14-16, 2013. Universität Hamburg, Germany.

C. Culy. 2013c. "Letter to the visualization field." Invited presentation at the Kickoff-Workshop der eHumanities-Verbundprojekte. April 8-9, 2013. Universität Leipzig, Germany.

C. Culy. 2013d. "Tackling a grand challenge in the visualization of language and linguistic data." Invited presentation at the Deutsche Gesellschaft für Sprachwissenschaft 2013 Workshop on the Visualization of Linguistic Patterns. March 13, 2013.

C. Culy. 2012. "Some challenges of language and linguistic data for information visualization." Invited keynote presentation at Advanced Visual Methods for Linguistics. September 5-7, 2012. University of York, United Kingdom. September 7, 2012.

## **Workshops and Summer School Courses**

C. Culy. 2014. "Visualization for Language and Linguistic Data: An Introduction to Advanced Corpus Visualization Tools." Workshop for the BAAL Corpus Linguistics SIG. December 6, 2014. Coventry University, Coventry, Great Britain.

M. Butt and C. Culy. 2014. "Visual Analytics for Linguistics." Workshop at ESSLLI 2014, August 11-15, 2014. University of Tübingen, Tübingen, Germany.

V. Lyding and C. Culy. 2012. "Visualizing Linguistic Data: From Principles to Toolkits for Doing it Yourself." Workshop at Advances in Visual Methods for Linguistics, September 5, 2012. York University, York, Great Britain.

## **Articles in conference proceedings**

C. Culy, E. Litta, and M. Passarotti. 2017. "Visual Exploration of Latin Derivational Morphology." Proceedings of the Thirtieth International Florida Artificial Intelligence Research Society Conference. Natural Language Processing of Ancient and other Low-resource Languages track. Marco Island, Florida, USA. May 2017. 601-606. Nominated for best paper.

E. Litta, M.C. Passarotti, and C. Culy. 2016a. "Morphology beyond inflection. Building a word formation based lexicon for Latin." Proceedings of the Fifth AIUCD Annual Conference. Digital editions: Representation, interoperability, text analysis and infrastructures. Venice. 7-9 September 2016. 231-234.

E. Litta, M.C. Passarotti, and C. Culy. 2016b. "Formatio formosa est. Building a Word Formation Lexicon for Latin." Third Italian Conference on Computational Linguistics. Naples. 5-6 December 2016. 185-189.
